

10 watt solar powered battery charger mighty mule

Overview

What is the Mighty Mule 10 watt solar panel kit?

The Mighty Mule 10-Watt Solar Panel Kit is an excellent option for charging the battery in your solar powered gate opener system. It maximizes sunlight for increased usage for your gate system, resulting in more gate cycles.

Can a 10 watt solar panel charge a gate opener battery?

The Mighty Mule FM123 is a 10 Watt Solar Panel Kit that is an excellent option for charging the battery in your solar powered gate opener system. This convenient solar panel kit collects energy from the sun and provides a trickle charge of power to keep an automatic gate opener 12V battery or batteries fully charged.

Can a mule gate opener charge a battery?

Great solution if you do not want to run power wires. By maximizing the sunlight exposure, get extended gate cycles and prolonged usage. Use with all Mighty Mule Gate Openers with their battery. Charges the 12V battery with the power of the sun. Residential homeowners can benefit from a 30% residential energy-efficient property tax credit.

What is a 10-watt solar system for a gate opener?

A 10-Watt solar system maximizes sunlight for increased usage for your gate system. The solar panel kit includes a strong steel support and mounting hardware with required 8 ft. low voltage wire, ideal for environments lacking a power source at the site of installation.
