

12v 80ah agm deep cycle solar battery

Overview

What is a 12V 80Ah battery?

A 12V 80Ah battery, as mentioned in the title, is a deep cycle battery constructed with Absorbed Glass Mat (AGM) technology. This technology results in a low-maintenance and spill proof battery. The battery's patented sealed posts prevent corrosion, contributing to an extended battery life. It fits in a variety of applications, ranging from alarm systems to mobile scooters.

What is a 12V AGM deep cycle battery?

A 12V AGM (Absorbed Glass Mat) deep cycle battery can deliver 800 cold cranking Amps and is designed for vehicles with plenty of electronics and for audio systems. It has a capacity of 72Ah and can be recharged faster with more than 300 discharge/recharge cycles. Additionally, it has 3x longer life and 15x more resistance to vibrations than conventional lead-acid counterparts.

Are there any 80ah AGM leisure batteries?

Below you will find our complete range of 80Ah AGM leisure batteries. We have tested each 80Ah AGM and we have highlighted our star performer from the result of our tests.
