

# **2 watt solar panel battery charger**

## Overview

---

Can a 1.5 watt solar panel charge a 12-volt battery?

A 1.5-watt solar panel can run all the battery-powered devices that are compatible with 12-volt batteries. Most essentially, you can use this solar panel to charge your 12-volt vehicle battery. Sometimes, it is hard to keep the battery alive when you are not driving the vehicle.

Can I charge two batteries from one solar panel?

To charge two car batteries from one solar panel, you need two solar charge controllers. My new PWM5 controller has been specifically designed to be used in this configuration. Both batteries are individually charged by the controllers.

What is a Coleman 2 watt battery maintainer?

The portable Coleman 2-Watt Solar Battery Maintainer is used to maintain the batteries of cars, SUVs, boats, and tractors and more. This unit is completely maintenance free and easy to install.
