The "SNEC 8th (2022) international energy storage (Shanghai) technology conference and Exhibition" (hereinafter referred to as "the 8th international energy storage two conferences") jointly sponsored by the Global Green Energy Council, Shanghai Federation of economic organizations, Shanghai.

Energy Storage North America (ESNA), the most influential gathering of policy, technology and market leaders in energy storage, concluded its second annual conference and expo with more than twice the previous year's attendance, a sold-out show floor, and praise from attendees for the high quality.

Energy storage systems are the key to the successful energy transition and are more relevant today than ever before. They can address numerous challenges of the energy transition at once: stabilise the electricity grids, support the shutdown of power plants, make regionally generated electricity.

Energy Storage North America (ESNA) is the largest conference, exhibition and networking event covering all applications of grid storage in North America. ESNA is produced by Strategen Consulting and Messe Dusseldorf North America, and is part of the larger World of Energy Storage events happening. What is IRES 2022?
