This is a 12V 50Ah LiFePO4 battery. It has a built-in 50A BMS and is a deep cycle lithium battery with up to 15,000 cycles and a 10-year lifetime. It's perfect for trolling motors, backup power, RV, camping, and off-grid use.

How much does a 50Ah cost?

Part no for the 50ah in my car is 61217623131 , possible superseded by a newer model. Attached is a pic of mine, but yeah, it's almost \$400 from dealer. Realoem.com says it supercedes 61217623132. I wonder what is different from 61217623131 I've tried to aftermarket.

How long does a 50Ah battery last?

Part no for the 50ah in my car is 61217623131, possible superseded by a newer model. Attached is a pic of mine, but yeah, it's almost \$400 from dealer. In general, I would say 5 years for a battery is generally correct, but my m3 battery is now 10 years old and still going strong . if you use a tender they can last a long time.

How much does a solar battery cost?

Historically, solar batteries have had a reputation for being prohibitively expensive, with many recorded instances where adding storage doubled the cost of a home solar installation. You can expect to pay between \$7,000 and \$18,000 for a solar battery.

Can solar batteries save you money?

Solar batteries can also save you money on utility power long-term. When utility costs are at their peak, you can pivot your home's energy consumption to run off of battery power rather than grid power, leveraging the electricity your solar panels generated when you need it most.
