

6 volt tractor battery solar charger

Overview

What is a 6V solar panel charger?

A 6V solar panel charger is a circuit designed to optimally charge a 12V lead-acid battery using a 6V solar panel. It provides approximately the same current as if the solar panel were directly connected to the battery.

What is a 6 volt battery charger?

The 6-Volt Battery Charger (PN 2.92) is fully regulated and can automatically charge any of our 6-volt batteries; output is 3.0 amps. The input voltage is 90-240 VAC, 50/60 Hz so it can be operated in virtually every country of the world.

Do 6V batteries drain a lot of power?

As we all know, batteries naturally drain power and if allowed to go flat, may never regain their full power. This product is a solar powered battery maintainer and charger for 6V batteries and helps manage battery drain in all season.

How does a solar charger work?

The solar charger converts light energy from the sun into 6 volt DC electricity which is then transported to the rechargeable batteries through lead wire and connector of choice, replace the self-discharge of a battery in storage, so that the battery wouldn't "go dead".

6 volt tractor battery solar charger

[Solar Battery Maintainers at Tractor Supply Co.](#)
