

Aegis solo battery door doesn't close

Overview

Why is my Geek vape aegis solo not working?

Replace the battery if none of the above solutions work. If nothing happens when you attempt to use the Geek Vape Aegis Solo, it's likely that the battery is dead or that the device is locked. To unlock the device, press the fire button five times quickly. If the device still doesn't work, try charging the battery.

Can I charge the aegis solo with a mobile phone?

Don't charge the Aegis Solo with a mobile phone or tablet charger. Make sure that the battery is secure and installed with the correct orientation. The battery's positive pole should face the top of the mod.

How do you open a geek vape aegis solo battery?

Part of why the Geek Vape Aegis solo does such a good job of withstanding shocks is because it has a threaded battery compartment that keeps water out and won't pop open accidentally. To open the battery compartment, lift the handle of the compartment lid and use it for leverage as you turn the lid counterclockwise.

What should I do if my aegis solo won't charge?

Try a different USB cable. Although the Aegis Solo can take a great deal of abuse, USB cables wear out quickly when they're used every day. Try a different computer or a different USB port on the same computer. Don't charge the Aegis Solo with a mobile phone or tablet charger.

Does the Geek vape aegis solo withstand shocks?

This is your quick-start Geek Vape Aegis Solo instruction manual. Part of why the Geek Vape Aegis solo does such a good job of withstanding shocks is because it has a threaded battery compartment that keeps water out and won't pop open accidentally.

What should I do if my Geek vape aegis solo tank is empty?

When the tank is empty, disassemble it and check the silicone gaskets for any warping or tearing that could indicate damage. Before removing a gasket, check the spare parts kit included with the Geek Vape Aegis Solo to confirm that you have a matching gasket.

Aegis solo battery door doesnt close

Aegis Solo Battery Cover Issue , Page 3 , E-Cigarette Forum

I've had this wonderful GeekVape Aegis Solo for just over 3 months now. I've been very happy with it but the screw-in battery cover is not working correctly
