

Arizer solo 1 extra batteries

Overview

Keep enjoying your Solo with this original replacement battery. The battery offers the same performance you're used to with the original, and it's a good idea to replace it once your old battery no longer charges properly. It has a 2200 mAh capacity and is super easy to replace. What is the battery capacity of the Arizer Solo 2?

The Arizer Solo 2 has a 3400 mAh battery, which is the longest battery life of any portable vaporizer. The original Arizer Solo is known for its long battery life.

How long does the arizer solo battery take to charge?

The battery will take 3-4 hours to fully charge, or longer if you use it while charging. If your battery is running low, with the Arizer Solo you don't have to wait for the battery to charge before you can use it. Just plug it in, set the temperature, and use the Solo while the battery continues charging.

Can I replace my arizer solo battery?

The Solo Battery is covered under a limited 1-Year warranty and is also available for purchase upon request. To inquire about replacing your Solo Battery send us an email to: service@arizer.com. Arizer Batteries should not be substituted for third-party batteries — Only use official Solo Batteries with your Arizer Solo.

What battery does arizer solo vaporizer use?

Arizer Solo Vaporizer is powered by a 2S 7.4V Lithium Ion battery pack. The original capacity is 2200 mAh. In this tutorial, I'm using my favorite Panasonic NCR18650B 3400 mAh cells to upgrade the pack with some extra boost. 22AWG or 20AWG stranded wire, red, black and white (or any other color to separate from red or black).

How do I conserve the battery life of the arizer solo?

To conserve battery life, use the Arizer Solo in a temperature controlled environment and use the lower temperature settings. When outdoors, stay sheltered from the elements and avoid using in extremely cold temperatures. Charge the battery as necessary.

How do I protect my arizer solo battery?

The Arizer Solo and Solo Chargers have built-in protections to prevent the battery from being overcharged or drained too low. To conserve battery life, use the Arizer Solo in a temperature controlled environment and use the lower temperature settings. When outdoors, stay sheltered from the elements and avoid using in extremely cold temperatures.
