

Overview

The Autel X-Star battery, while reliable, is no exception. Knowing what to expect—and how to troubleshoot—can save you from costly mistakes or mid-flight emergencies. Cause: Often due to deep discharge, poor contact, or charger malfunction. Fix: Check connectors for debris or corrosion. How long does Autel X-Star Premium battery last?

When it comes to the battery life for Autel X-star premium it can last about 35 minutes if you are cruising at a low speed, else if heavy movement then it should easily last you 25 minutes which is pretty good given that the autel drone has a fast charger to pump juice back to the battery.

How can I tell if my Autel battery is charging?

When charging, the lights on the Autel battery will blink from low percentage to high percentage. Once the charging process is complete, the lights on the battery will turn off.

Is Autel X-Star Premium a good quadcopter?

Autel X-Star Premium specs are quite good for the price range, the autel drone features a flight time of approximately 30 minutes. The Autel Quadcopter also has full HD & 4k recording option at a steady 120FPS with a max speed of around 60kph which is insane for the light weight of 1.4 kilograms.

Do Autel batteries have storage self-discharge protection?

Autel Robotics' custom-designed rechargeable Li-Po smart batteries feature high energy density and capacity, so in order to provide safe storage your batteries feature Storage Self-Discharge Protection.
