

# **Average Solar Panel price per 5MW in Cyprus**

## Overview

---

Thinking of solar panels in Cyprus?

Our 2025 buyer's guide covers prices, pros & cons, and expert tips to help you make the right choice.

Thinking of solar panels in Cyprus?

Our 2025 buyer's guide covers prices, pros & cons, and expert tips to help you make the right choice.

These numbers are based on average installation prices in Cyprus and an electricity rate of around €0.30/kWh. Please note that exact costs can vary depending on the equipment brand, roof type, installation complexity, and additional materials. For an accurate quotation, contact CGP Solar. As you.

The maximum power is 10,4kWp for households and 20 kW for farmers. Net-Billing is a scheme that can be used by everyone but mostly addresses businesses and large electricity consumers. With this photovoltaic system, the electricity that is generated by the solar panels in Cyprus is directly used.

Get the best deal for your solar panels in Cyprus! Use our tool to request and compare quotes from top solar installers. Save time and money by comparing prices effortlessly.

In Cyprus, you can save up to 80% on your annual energy costs with a solar system. The investment typically pays off within 2 to 3 years. Are there government subsidies for solar systems?

Yes, there are government subsidies for solar systems in Cyprus. For a solar system with up to 4 kWp capacity.

The one-stop-shop for solar panels and photovoltaik equipment in Cyprus. Browse through our best selling products. Learn how our solar panel brands compare. Learn how our inverter brands compare. Learn how our solar light brands compare. Pick up your order any time from our Limassol warehouse.

Net-Metering in Cyprus is a photovoltaic system that helps permanent residents of Cyprus to save on their electricity bills. The consumer chooses which system they wish to install on their roof or plot. Their photovoltaic system is connected to the EAC network and in this way the energy produced. How much does it cost to install solar panels in Cyprus?

The average price of installing solar panels has dramatically dropped over the last decade to almost 90%, allowing more people to afford such an investment. In Cyprus, it is estimated that it takes about 1.5 to 4 for the investment to pay off. The final price heavily depends on the specifications of your project and your needs.

Where can photovoltaic panels be installed in Cyprus?

Photovoltaic systems can be installed on flat and inclined roofs and on the ground. Our team can visit the place where you want the solar panels to be installed, evaluate the amount of space, sun exposure and possible shading and suggest the best place so that you make the most out of your photovoltaic panels in Cyprus.

What is a commercial photovoltaic system in Cyprus?

Commercial photovoltaic systems in Cyprus are usually used by businesses for self-consumption. That is, the energy generated by the solar panels is solely used for the building where the panels are installed.

What are solar panels used for in Cyprus?

Solar panels in Cyprus are used for residential, industrial and commercial properties. Other than home use, many businesses install photovoltaic panels in Cyprus for self-consumption. That is, they use the energy the photovoltaic system generates directly, but cannot store any excess energy for following months.

Can I use photovoltaic systems to harvest solar energy in Cyprus?

Using photovoltaic systems to harvest the solar energy in Cyprus is a no-brainer. Learn how you can save € with solar panels via the Net Metering scheme Using photovoltaic systems to harvest the solar energy in Cyprus is a no-brainer. Learn how you can save € with solar panels via the Net Metering scheme.

Can a non-residential solar system be installed in Cyprus?

Residents of Cyprus who haven't installed any other PV systems with any other Government Grant Scheme are entitled to apply for a non-residential solar panel project, and the panels can be installed either on the roof of the applicant's premises or on the ground. The contract between the producer and the EAC lasts 10 years.
