

Average hybrid solar storage price per 10kW in Australia

Overview

On a national level, the average cost for a 10kW solar battery system in 2025 ranges from \$10,000 to \$18,000, including installation. This depends on the battery brand, installer, and whether it's paired with a solar PV system. How much does a 10 kWh solar battery cost in Australia?

The average price for a 10 kWh solar battery ranges between \$8,000 - \$10,000. While the uptake of solar panels in Australia is really strong, the same cannot be said for solar batteries. A newer technology, battery storage has been viewed as expensive - especially when comparing the payback of a battery system against its expected life.

How much does a solar battery cost in Australia?

A guide to solar battery prices and value. Solar battery prices have come down significantly with the introduction of the federal government rebate. The average price for a 10 kWh solar battery ranges between \$8,000 - \$10,000. While the uptake of solar panels in Australia is really strong, the same cannot be said for solar batteries.

How much does a 6.6kW Solar System cost in Australia?

Therefore, on average, a 6.6kW solar system is more than capable of filling a 10kW solar battery. As shown in the table, the average installed cost for a 10kW solar battery system in Australia ranges from \$8,000 to \$15,500. The total daily energy consumption for the above appliances is calculated as follows:.

How much does a 10kW solar battery cost?

In 2025, the average price of a 10kW solar battery system (including installation) ranges between \$10,000 and \$18,000, depending on the brand, installation complexity, and available rebates. 2. Can a 10kW battery power a home?

.

How much does a solar battery cost in New South Wales?

Thanks to New South Wales's Empowering Homes Program, some households may be eligible for interest-free loans up to \$14,000 for solar battery systems. Victorian residents pay around \$10,500 to \$16,500 for a 10kW solar battery. The Solar Victoria Battery Rebate provides eligible homeowners up to \$2,950 off the cost of a battery installation.

Is a 10kW solar battery a smart investment in Australia?

In summary, a 10kW solar battery system can provide both financial and environmental benefits, making it a smart investment for households in Australia. As prices continue to decrease and technology improves, we can expect to see even more homes harnessing the power of the sun to meet their energy needs. So why wait?
