

# **Average off grid solar storage price per 200MW in Bulgaria**

## Overview

---

What is the cost of co-located storage in Bulgaria?

The announcement of the tenders follows a public consultation initiated in October 2023. (BGN 1 = EUR 0.511/USD 0.557) The Bulgarian energy ministry on Thursday opened to applications two procedures to support renewable energy sources with co-located storage with an overall budget of over BGN 535 million (EUR 274m/USD 298m).

How much energy storage can a beneficiary receive?

Each beneficiary can receive up to EUR 379,000 per MW of energy storage, excluding VAT. A South African investor opened a battery factory in Rousse last year Bulgaria is relying heavily on battery technology and energy storage overall in its energy transition.

How much money does Bulgaria earmark for battery systems?

Bulgaria earmarked EUR 273 million in subsidies for battery systems required to be installed together with renewable electricity plants.

How much money is needed to build a battery plant in South Africa?

The budget is EUR 218 million. The government said at least 940 MW of capacity needs to be supported, with a minimum of 200 MW in total in battery operating power. Each beneficiary can receive up to EUR 379,000 per MW of energy storage, excluding VAT. A South African investor opened a battery factory in Rousse last year
