

# **Average off grid solar storage price per 20MW in Chile**

## Overview

---

How many energy storage projects are in Chile?

According to a December 2023 publication on the InvestChile website, the country had 23 approved energy storage projects with a total of 3,000 MW of capacity. Chile is exploring a variety of solutions to keep abreast of the changing energy demand landscape ranging from BESS to innovative projects using CO<sub>2</sub>.

How can Chile keep up with the changing energy demand landscape?

Chile is exploring a variety of solutions to keep abreast of the changing energy demand landscape ranging from BESS to innovative projects using CO<sub>2</sub>. In March 2024, BESS Coya, the largest battery-based energy storage system in Latin America, started operations.

How much energy will Chile have by 2026?

According to estimates of the national electric system of Chile (SEN) cited by Americas Market Intelligence, the country will have 13.2 GWh/ 2 GW (6–8-hour duration) of operating energy storage by 2026. The northern regions of Antofagasta and Atacama account for nearly 5GW of the BESS pipeline.

How many GW of solar & wind are there in Chile?

Around 9 GW of solar and wind have been commissioned in the country between 2019 and 2023, an Enerdata report dated April 2024 shows. The share of renewables in Chile's power mix has been growing at a fast pace and reached 58% in 2023.

How will energy storage and electric transport be remunerated in 2022?

In October 2022, congress passed a bill to incentivise the development of energy storage and electric transport. The legislation allows energy companies to opt for remuneration for the energy they store and then inject back into the system.

Which energy companies are investing in storage?

At the moment, the country's four largest energy generation companies are leading the way with investment in storage: Engie, Enel, Colbún and AES Andes.

## Average off grid solar storage price per 20MW in Chile

---

### [2025 Cost of Energy Storage in California, EnergySage](#)

As of August 2025, the average storage system cost in California is \$1031/kWh. Given a storage system size of 13 kWh, an average storage installation in California ranges in ...

### Chilean Electricity Market

Supply auction 2022/01 was only partially awarded The 2022/01 auction process awarded only 14.8% of the total energy considered (5,250 GWh/year). After four consecutive falls in the ...
