A paid subscription is required for full access. The residential electricity price in Brazil averaged 879 Brazilian reals per megawatt-hour in August 2024. The record low of the period in consideration was recorded in May 2020, at 711 Brazilian reals per megawatt-hour. Get notified via email when this statistic is updated. \* For commercial use only.

How long does a Brazilian electricity account last?

The account requires an annual contract and will renew after one year to the regular list price. In 2022, the end-user electricity consumption rate in Brazil averaged 637 Brazilian reals per megawatt-hour, an increase of roughly five percent in comparison to the previous year and the highest figure reported during the period in consideration.

Is solar power gaining traction in Brazil?

The South American country has been growing its electricity capacity, becoming one of the leading hydropower producers worldwide. Nevertheless, in line with global trends, solar and wind power have been gaining traction in Brazil's electricity sector. Find up-to-date statistics and facts on the Brazilian electricity market.

How much does electricity cost in Australia?

The price for residential electricity was approximately 0.824 BRL per kWh, marking an increase of 4.3% compared to the preceding month's figure. Year-over-year, residential electricity prices declined by 26.6%. The price for industrial electricity was about 0.751 BRL per kWh, reflecting a rise of 3.3% from the prior month's amount.
