

# **Average residential ESS price per 15MW in Norway**

## Overview

---

Despite a decline in the spot price of electricity, the average electricity price for households was 3 percent higher in the second quarter of 2025 than in the previous quarter, but 1,1 percent lower than in the second quarter of last year.

Despite a decline in the spot price of electricity, the average electricity price for households was 3 percent higher in the second quarter of 2025 than in the previous quarter, but 1,1 percent lower than in the second quarter of last year.

This means that the appendix tables for end-users will show one aggregate price for fixed-price agreements per end-user category, with no further breakdown. In Statbank, new tables will be created that take into account the new classification of fixed-price contracts, and the old tables will no.

Nor.

The residential electricity price in Norway is NOK 1.917 per kWh or USD 0.191. The electricity price for businesses is NOK 1.024 kWh or USD 0.102. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Norway.

Electricity prices peaked in 2022 at some 31.26 euro cents per kilowatt-hour for users with an annual consumption greater than 1,000 and lower than 2,500 kilowatt-hours. Meanwhile, users with a consumption greater than 2,500 and lower than 5,000 kilowatt-hours paid an average of 18.9 euro cents per.

The average electricity price (including taxes but excluding grid rent) range between 0.50 to 1.00 Norwegian Krone (NOK) per kWh. However, it's essential to check updated sources or utility websites, as these figures can fluctuate based on the factors mentioned above. While we've discussed average.

One of the best services to see the electricity prices on a hourly basis is VG's " Strømprisen " service. This gives you the hourly electricity prices including VAT, meaning it's very close to what you will actually pay for using it. You

need to start typing in the name of your municipality to find. How much does electricity cost in Norway?

The residential electricity price in Norway is NOK 1.917 per kWh or USD 0.187. The electricity price for businesses is NOK 1.024 kWh or USD 0.100. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Norway with 150 other countries.

What happened to electricity prices in Norway in 2023?

In 2023, Norwegian households saw a decrease in the price of electricity. Electricity prices peaked in 2022 at some 31.26 euro cents per kilowatt-hour for users with an annual consumption greater than 1,000 and lower than 2,500 kilowatt-hours.

Does Norway offer electricity support?

The Norwegian government launched a temporary electricity support package for households from December 2021. From the 4th quarter of 2021 and onwards, data on average electricity support is included in the electricity price statistics.

How do I compare electricity providers in Norway?

Numerous platforms and websites provide comparisons of electricity providers in Norway. While many are in Norwegian, some platforms are available in English or offer translation options. Look for providers' customer ratings, the sources of their electricity, and any added benefits or offers.

What are the taxes for households in Norway?

Taxes for households consists of tax on consumption of electricity, value added tax (VAT) and subsidies to Enova. All counties in Norway have the same tax rate for the consumption of electricity, apart from some parts of Troms and the whole of Finnmark, which are exempt.

How can insulation reduce electricity costs in Norway?

Given Norway's cold climate, a significant portion of electricity costs can come from heating. Proper insulation can significantly reduce these costs. Ensure your windows, doors, and walls are adequately insulated. If you're renting, speak with your landlord about potential insulation upgrades.
