The prices of solar energy storage containers vary based on factors such as capacity, battery type, and other specifications. According to data made available by Wood Mackenzie's Q1 2025 Energy Storage Report, the following is the range of price for PV energy storage containers in the market:

Electricity prices in Croatia have changed over several key periods, and the table below shows a price comparison with exact amounts and percentage differences: November 2024. The increases are mainly caused by the increase in electricity purchase prices on world markets and the increase in.

In general, a basic solar trailer (plug-and-play PV only) starts around €21,500 for a 12.6 kWp system with 41 kWh battery, while mid-range hybrid containers (80–200 kW PV with LiFePO<sub>4</sub> storage) often cost €30,900–€43,100; small off-grid units can be found for ~\$9,850–\$15,800, and turnkey BESS.
