

Average warehouse solar storage price per 3MW in Ghana

Overview

Is it worth installing solar power in Ghana?

Ghana has an average effective sunshine of 5.5 hours daily .As a considerable investment, it's worth evaluating a solar power system for your home before have it installed. Doing your research and seeking professional advice can help you to make an informed decision. Here are a couple of other things to consider before making the change:.

Are solar products available at dealers' warehouses?

Customers who need solar products (solar modules, inverters, batteries, fridges, cables, etc.) very often have little or no information about the current availability of the items which they are looking for at dealers' warehouses and what their best prices are.

How do I access the products that are in stock in Ghana?

To access the products which are in stock in Ghana, please follow the following steps: Click the button Products/Sales. Under this section, you will have access to different product groups; solar modules, batteries, inverters,etc.
