

BESS supplier quotation in Vietnam 2025

Overview

Search all the latest and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Vietnam with our comprehensive online database. Does Vietnam have a Bess market?

Currently, the BESS market in Vietnam is nascent, with significant limitations in terms of technical expertise and infrastructure. As at November 2024, Vietnam had only three pilot BESS projects: one at Power Engineering Consulting Joint Stock Company 2 (PECC2), another at VinFast and a third at Kehua Digital Energy in Khanh Hoa.

How a Bess project is promoting energy storage in Vietnam?

Encouraging domestic enterprises to invest in new technologies will promote the growth of the energy storage industry in Vietnam. Investment in BESS projects in Vietnam is attracting the attention of international partners due to the country's strong potential for RE development.

Does Vietnam have a Bess project?

Although no large-scale BESS projects have been implemented yet, Vietnam has put in place the conditions for BESS roll-out. Vietnam has a growing number of engineers and specialists in the RE sector. Training programmes at universities and research organisations are beginning to place emphasis on energy storage technology.

Why is Bess important in Vietnam?

This further highlights the role of BESSs as an effective solution to reduce dependence on fossil energy sources and enhance renewable energy storage capacity. A detailed BESS analysis shows that Vietnam is accelerating the development of RE combined with BESSs to optimise energy use and ensure the stability of the power grid.

Why do businesses need a Bess system in Vietnam?

BESSs not only enable businesses to store surplus energy during low-demand periods but also alleviate pressure on the grid during peak hours, optimising operating costs. Currently, the BESS market in Vietnam is nascent, with significant limitations in terms of technical expertise and infrastructure.

How can Vietnam continue to promote re and Bess projects?

Diversifying funding sources and support mechanisms is a crucial factor in helping Vietnam continue to strongly promote RE and BESS projects and, at the same time, achieve its energy transition and green-house gas emission reduction goals.
