

# Battery installed capacity and energy storage capacity

## Overview

---

Global installed energy storage capacity by scenario, 2023 and 2030 - Chart and data by the International Energy Agency.

Global installed energy storage capacity by scenario, 2023 and 2030 - Chart and data by the International Energy Agency.

Other storage includes compressed air energy storage, flywheel and thermal storage. Hydrogen electrolyzers are not included. Global installed energy storage capacity by scenario, 2023 and 2030 - Chart and data by the International Energy Agency.

In the United States, cumulative utility-scale battery storage capacity exceeded 26 gigawatts (GW) in 2024, according to our January 2025 Preliminary Monthly Electric Generator Inventory. Generators added 10.4 GW of new battery storage capacity in 2024, the second-largest generating capacity.

China has published a national plan to promote large-scale energy storage facilities, encouraging investment and broader participation in the electricity market. The 'Special action plan for large-scale construction of new energy storage (2025-2027)' was published last Friday (12 September).

## Battery installed capacity and energy storage capacity

---

### [China targets 180GW of installed BESS capacity by 2027](#)

9 ????. The policy and regulatory roadmap is aimed at pushing China's installed base of large-scale energy storage - primarily lithium-ion battery energy storage systems (BESS) - to ...

### **Solar, battery storage to lead new U.S. generating capacity ...**

We expect 63 gigawatts (GW) of new utility-scale electric-generating capacity to be added to the U.S. power grid in 2025 in our latest Preliminary Monthly Electric Generator ...

### [Measuring Battery Electric Storage System ...](#)

The three quantities are related as follows:  
Duration = Energy Storage Capacity / Power Rating  
Suppose that your utility has installed a battery with a power ...

### [India's battery storage capacity hits 219.1 MWh](#)

India's installed battery storage capacity reached 219.1 MWh at the end of March 2024. A recent Mercom report predicts that the nation will ...

### [India's Installed Battery Storage Capacity Hits 219 MWh](#)

By March 2024, the country's cumulative installed energy storage capacity reached 219.1 MWh (~111.7 MW), with 120 MWh (40 MW) added in the first quarter of 2024 ...

### [United States energy storage industry](#)

Owing to the energy storage incentives introduced by the Inflation Reduction Act (IRA), annual energy storage capacity additions in the U.S. have reached 9.3 gigawatts in ...

### [Top 20 Countries by Battery Storage Capacity](#)

This graphic highlights the top 20 BESS markets by current and planned grid capacity in gigawatt hour (GWh), based on exclusive data from Rho Motion as of February 2025.

### [The installed capacity of battery energy storage](#)

...

The energy storage systems owned by Europe at that time were mainly pumped storage power generation facilities, with a total installed ...

### [Top 20 Countries by Battery Storage Capacity](#)

Chinese Dominance As with the EV market, China currently dominates global BESS deployments, accounting for approximately two-thirds of installed capacity. However, ...

### [German battery storage capacity increases 50% in ...](#)

In addition to new home systems, about 100 large-scale battery storage systems (with a capacity of at least 1MWh) were installed in 2024, ...

### **New report: European battery storage grows 15% in 2024, EU energy**

21.9 GWh of battery energy storage systems (BESS) was installed in Europe in 2024, marking the eleventh consecutive year of record breaking installations, and bringing ...

### [China's battery storage capacity doubles in 2024](#)

China's electrochemical energy storage industry saw explosive growth in 2024, with total installed capacity more than doubling year-on-year, ...

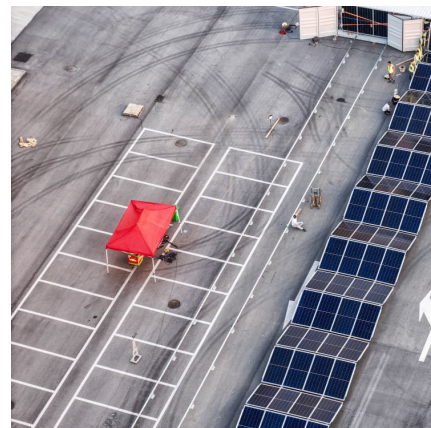

### [Analysis on Recent Installed Capacity of Major ...](#)

This benefit is facilitated by the decreasing costs of energy storage systems, primarily those utilizing lithium batteries, in tandem with ...

### [Summary of Global Energy Storage Market Tracking ...](#)

According to incomplete statistics from CNESA DataLink Global Energy Storage Database, by the end of June 2023, the cumulative installed ...

### [New battery storage capacity to surpass 400 GWh per ...](#)

As the world transitions to greener sources of power generation such as solar PV and wind, battery energy storage developments will be ...

### [InfoLink: 222 GWh more energy storage worldwide in ...](#)

The global energy storage market had installed 175.4 GWh of capacity by 2024, with Tesla leading shipments. Europe accounted for 19.1 ...

### **Understanding Energy Storage: Power Capacity vs. Energy Capacity...**

Discover the key differences between power and energy capacity, the relationship between Ah and Wh, and the distinctions between kVA and kW in energy storage ...

### **2023 energy storage installation outlook: China, US, and Europe**

On the other side of the coin, abundant residential energy storage systems and modular installation methods accelerate project construction. In the utility-scale energy storage ...

...

[Executive summary - Batteries and Secure Energy ...](#)

Battery storage in the power sector was the fastest growing energy technology in 2023 that was commercially available, with deployment more than doubling ...

[EIA: Updated Forecasts on U.S. Installed Capacity of ...](#)

In the first half of 2023, the United States saw significant growth in its utility energy storage capacity and reserves: According to S& P Global' S ...

[Global battery storage capacity expands by record ...](#)

Global installed energy storage is on a steep rise and is expected to increase ninefold by 2040, to over 4 TW, driven by battery energy ...

### Analysis on Recent Installed Capacity of Major Overseas Energy Storage

This benefit is facilitated by the decreasing costs of energy storage systems, primarily those utilizing lithium batteries, in tandem with subsidies offered through certain local ...

### Global energy storage

The global battery industry has been gaining momentum over the last few years, and investments in battery storage and power grids surpassed 450 billion U.S. dollars in 2024.

### [China targets 180GW of installed BESS capacity by 2027](#)

9 ????· The policy and regulatory roadmap is aimed at pushing China's installed base of large-scale energy storage - primarily lithium-ion battery energy storage systems (BESS) - to ...

### [China's new energy storage capacity surges to 74 ...](#)

The year saw the integration of several non-lithium storage projects into the grid, including a 300 MW/1,500 MWh compressed air energy ...

### **Chart: US is set to shatter grid battery records this year**

The U.S. is set to plug over 18 gigawatts of new utility-scale energy storage capacity into the grid in 2025, up from 2024 's record-setting ...
