

Battery tender solar instructions

Overview

How do you connect alligator clips to a battery tender Charger?

Plug this into the SAE connector on your battery charger. Switching from alligator clips to ring terminals on your Battery Tender charger is simple, thanks to the innovative combo cables from Battery Tender. Using a hex wrench, loosen the bolts under the alligator clips. The ring terminals are located under the bolts (see image below).

How do I attach a ring terminal to a battery?

Attach the Ring Terminals: Using the ring terminal cables provided with your charger, attach the red ring terminal to the positive (+) battery post and the black ring terminal to the negative (-) battery post. Secure the Connections: Ensure alligator clips are firmly attached to the battery posts to avoid any loose connections.

Can You charge a dry cell battery with a battery charger?

Do not use battery charger for charging dry-cell batteries that are commonly used with home appliances. These batteries may burst and cause injury to persons and damage to property. i) NEVER charge a frozen battery. terminal from battery first. Make sure all accessories in the vehicle are off, so as not to cause an arc.
