

# Battery tender solar jr

## Overview

---

What is a battery tender junior?

The Battery Tender Junior is a fully automatic and microprocessor-controlled 12-Volt 750-mA battery charger. It is designed to bring a battery back up to a full state of charge and then maintain a battery at 100% indefinitely without the worry of typical trickle chargers that sometimes overcharge and burn up batteries.

What is a solar battery tender?

Thankfully, there is a simple solution to your battery draining problems and that is a solar battery tender. A battery tender, or maintainer, is designed to maintain your vehicle's battery at the optimum charge so that your car is ready to go whenever you are.

Can a battery tender Jr charge two batteries at the same time?

The Battery Tender Jr will not be strong enough to charge and maintain these two batteries at the same time. If the truck will be parked in a garage you can use a 2 bank charger 022-0165-DL-WH and connect one bank to each battery. Thank you, Customer Service.

Can a battery tender Jr charge a dead battery?

The Battery Tender Jr will not be able to charge a completely dead battery. The battery has to have at least 3 volts. If your headlight will come on but the bike does not start then you have enough voltage for the charger to work. This device charges at 3/4 of an amp per hour.

Who is battery tender?
