

Belgrade lithium-ion battery energy storage container manufacturer

Overview

Who is lithium storage?

LITHIUM STORAGE is a lithium technology provider. LITHIUM STORAGE focuses on to deliver lithium ion battery, lithium ion battery module and lithium based battery system with BMS and control units for both electric mobility and energy storage system application, including standard products and customized products.

What is a lithium battery energy storage container system?

lithium battery energy storage container system mainly used in large-scale commercial and industrial energy storage applications. We offer OEM/ODM solutions with our 15 years in lithium battery industry.

What is a containerized energy storage system?

The Containerized energy storage system refers to large lithium energy storage systems installed in sturdy, portable shipping containers, which usually range from 5ft, 10ft, 20ft, and 40ft, and mainly focus on 50Kwh to 10Mwh.

Why should you choose a lithium-ion battery storage container?

Flexibility and scalability: Compared with traditional energy storage power stations, lithium-ion battery storage containers can be transported by sea and land, no need to be installed in one fixed place and subject to geographical restrictions.
