Your electric company pays you for the excess solar power that you generate from the solar panels on your roof. Read on to find our recommendations for the best solar buyback plans and a comparison chart to let you compare buyback plans head to head! NOTE: Sorry to be the bearer of bad news. But if.

The Texas solar buyback market has evolved beyond traditional net metering, with providers now offering everything from real-time wholesale rates to special battery incentives. Finding the right plan can mean thousands in savings. Skip the spreadsheets and get a personalized comparison instead.

We evaluated more than two dozen companies and surveyed 1,000 current solar customers to help determine the best solar companies in the U.S. We compiled information about each company's warranties and solar offerings and shared information that you should know before taking the leap into solar. We.

When your rooftop solar system produces more electricity than your home is using, the excess flows back onto the grid to other users. With a "buyback" electric plan, that earns you bill credits or cash. The table below summarizes all current residential buyback plans. Rates and terms vary, so.

If you want protection from outages, Energy + One Battery covers ~97% of Texas outages and takes up minimal space. For maximum protection and capacity, Energy + Two Batteries will power your home through extended

outages (up to 48 hours with reduced energy consumption). How do I compare my current.

Based on thousands of customer reviews, equipment selection, payment options and system performance guarantees, Sunlux is the top solar company in 2025. Project Solar stands out for having the most transparent pricing, and Freedom Solar Power is best for a good customer service experience. What are the best electricity plans for people with solar panels?

These are our recommendations for the best electricity plans for people with solar panels. If you want to sell excess power back to the grid at a fixed price, Chariot Energy is our recommendation for solar buyback. They offer a fixed rate for solar buyback, plus an affordable rate for the power they sell to you.

What is the best plan for solar & battery owners?

The best plan for solar + battery owners is often a time-of-use tariff with lower off-peak and shoulder rates. The expensive peak rates on these plans can be mostly avoided if you have enough solar and storage. Virtual Power Plants are another option for battery owners. Compare VPPs [here](#).

What makes a good solar energy company?

A good solar energy company provides multiple financing options for leasing or owning. Although ownership is generally best, the large down payments or monthly loan installments (that come with additional interests) are an obstacle to many homeowners.
