

# Blink solar battery replacement

## Overview

---

What battery does a blink solar panel use?

The Solar Panel uses one 18650 Lithium-Ion rechargeable battery. In the event a new battery is required, please only use an 18650 battery with the following specifications: 3.7 V, 3200mAh, 11.84Wh. Where can I mount my Blink Solar Panel Mount?

The Solar Panel Mount can be mounted on various surfaces including siding, stone, and wood.

What is the blink solar panel mount?

The Blink Solar Panel Mount is a wireless solar panel charging accessory that uses sunlight to power the Blink Outdoor (3rd Gen) Camera (Outdoor 4, XT and XT2 not supported). How does the Blink Solar Panel Mount work?

First remove the pull-tab in the battery compartment to activate the battery.

Does a solar panel extend the battery life of a blink camera?

No, the Solar Panel simply provides external power to your Blink Outdoor (3rd Gen) Camera, which may extend the life of your camera's batteries. What kind of battery is used in the Blink Solar Panel Mount?

The Solar Panel uses one 18650 Lithium-Ion rechargeable battery.

Will my Blink outdoor 3rd gen camera switch to a lithium battery?

Yes, your Blink Outdoor (3rd Gen) Camera will switch to using its internal 1.5v AA lithium batteries in the event that your Solar Panel Mount has no charge. Once your Mount has adequate charge to power your camera, it will revert back to using it after three minutes or upon the execution of a new event (ex. Live View or Motion Detection).

Can I use a solar panel mount with a blink outdoor camera?

No, the Solar Mount can only be used with Blink Outdoor (3rd Gen) cameras. Other Blink outdoor cameras (Outdoor 4, XT or XT2) are NOT compatible with its Micro-USB connector to provide a weather resistant seal. Does my Blink Outdoor (3rd Gen) camera have full functionality when powered by the Solar Panel Mount?

.

How do I Change my Blink camera battery?

Replacement Batteries: Ensure you have compatible batteries. Blink cameras typically use lithium AA batteries. It's advisable to use reputable brands to avoid issues. Screwdriver (if necessary): Some models may require a screwdriver for battery access. Changing the battery on your Blink camera is a straightforward process.
