

Business energy storage project financing options in Mexico 2026

Overview

What does CFE do for Mexico?

CFE must help fulfill the international commitments acquired by Mexico on GHG emissions and must comply with the objectives established in the General Law on Climate Change and the Energy Transition Law, which establish that Mexico must generate 35% of its electricity with renewable sources by 2024. Reduce CO2 emissions in electricity generation.

What is CFE's strategic plan for 2022-2026?

CFE's Hydroelectric Plant Ing. Alfredo Elías Ayub (La Yesca) 1. Introduction
One of the main drivers of the company's strategic planning considered in the 2022-2026 CFE's Business Plan is the commitment to foster Environmental, Social and Governance (ESG) culture and policies.

How will EV charging stations work in Mexico?

Expand Electromobility in Mexico. Under the supervision of the "PAESE", CFE will install Electrical Vehicles (EV) charging stations on selected cities and strategic routes within Mexico to reduce the impact of GHG emissions related to motor vehicles.

Business energy storage project financing options in Mexico 2026

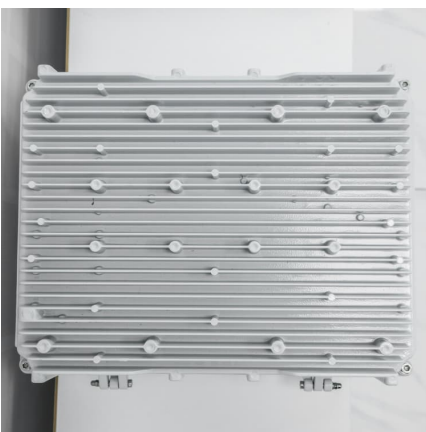

Advanced Topics in Energy Storage: Innovative Business ...

Aimed at energy storage professionals along the entire value chain, this advanced workshop session provides a 360° view on new emerging business models, latest ...

[State by State: An Updated Roadmap Through the ...](#)

Energy storage resources have become an increasingly important component of the energy mix as traditional fossil fuel baseload energy resources transition to renewable energy sources. Currently 23 states, plus the ...

CFE presented its 2022-2026 business plan, which includes the creation of the Clean Energies Trust (FIEL) and the Conventional Generation Projects Trust (FPGC) to give ...

[The state of battery storage \(BESS\) in Latin America: ...](#)

Chile Chile passed an energy storage and electromobility bill in late 2022, making stand-alone storage projects profitable for operators.

However, the market is still awaiting new rules regarding a capacity payment for storage ...

Plus Power Secures Contract for 150 MW Energy Storage Project

Details of the Corazon Energy Storage Project
Plus Power's Corazon Energy Storage project has garnered a 20-year contract from Public Service Company of New Mexico ...

EDF and EIB complete EUR1 billion financing to modernize Enedis' ...

4 ???· Nearly 60% (69% in France) of annual EIB Group financing supports projects that help fight climate change and improve climate change adaptation. In 2024 the EIB made a record ...

[Top five energy storage projects in the US](#)

Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. The US had 5,310MW of ...

New Mexico utility seeks approvals for battery storage ...

Public Service Company of New Mexico is seeking approval of off-take agreements for third-party BESS contracts and a project it will own.

GridStor Announces Acquisition of Texas Battery Energy Storage Project

GridStor's project will be built in Hidalgo County, Texas, and is expected to come online by the summer of 2026. At its height of construction, the project is expected to sustain ...

[Expectations for Renewable Energy Finance in 2023-2026](#)

To assess the impacts of these developments on investment and deal flow, the American Council on Renewable Energy (ACORE) surveyed companies that actively develop or finance U.S. ...

[External Financing for Energy Projects](#)

The questions below are geared toward existing building upgrades. If it is a new construction project there may be more financing options, as well as the ability to combine financing ...

[Addressing Tariffs and Trade in Energy Storage Projects](#)

Two major areas of international trade that will remain causes of concern for energy storage projects are the application of tariffs and supply chain integrity. While it remains to be seen what the US administration might impose ...

[Global Energy Storage Growth Upheld by New Markets](#)

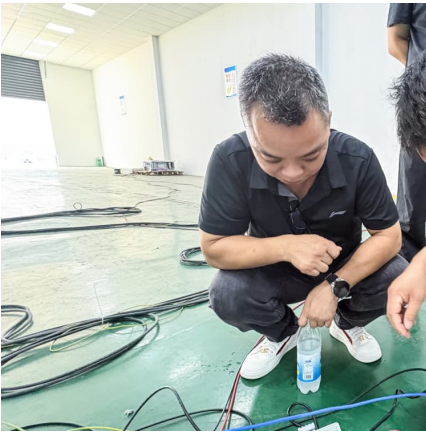

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, the sector continues to grow as developers ...

Plus Power Battery Storage Project Wins Public Service ...

Today, Plus Power announced that its 150 MW / 600 MWh Corazon Energy Storage project was awarded a 20-year contract by Public Service Company of New Mexico ...

Home

Our energy storage projects enhance grid stability by storing excess energy and injecting it back into the grid when it is needed during record peaks, storms, and unexpected demand. This ...

[What Mexico's New Storage Rules Really Mean for ...](#)

After years of stop-and-go drafts, Mexico's Energy Regulatory Commission (CRE) finally published Resolution A/113/2024 in the Diario Oficial de la Federación on March ...

Energy Storage, Solar Power: Mexico's Path to Sustainability

Storage and solar power will drive growth, ensure grid stability, and support the transition to clean energy, says Kiin Energy's Humberto García.

Battery Energy Storage Financing Structures and Revenue ...

Financing structure options for standalone storage projects and hybrid solar plus storage projects. The pool of potential investors in these projects by allowing project owners to transfer ...

[Financing the renewable energy sector in Mexico](#)

For a long time, the country's energy needs were met using traditional energy sources, but huge solar, wind and even geothermal potential create optimal conditions for investment in the RES sector.

State by State: An Updated Roadmap Through the Current US Energy

Energy storage resources have become an increasingly important component of the energy mix as traditional fossil fuel baseload energy resources transition to renewable ...

[The Potential For Energy Storage In Mexico](#)

Mexico can unlock the full potential of energy storage solutions by fostering greater integration of renewable energy, supporting grid stability, and improving regulations related to battery storage.

[CFE's Investment Plan at Risk: Moody's](#)

Rating agency Moody's reported this week that CFE's US\$16 billion investment plan is at risk in both its financing and execution. The plan, aiming to support developments up ...

[Mexico's Santa Teresa solar and storage project](#)

Construction begins on New Mexico's Santa Teresa solar and storage project This renewable energy initiative includes a 150MW solar facility coupled with a 60MW BESS.

Comprehensive Guide to Financing Solar Panels & Energy ...

Discover comprehensive financing solutions for solar panels and energy storage systems tailored for industrial properties in Mexico. Explore how businesses can leverage sustainable energy ...

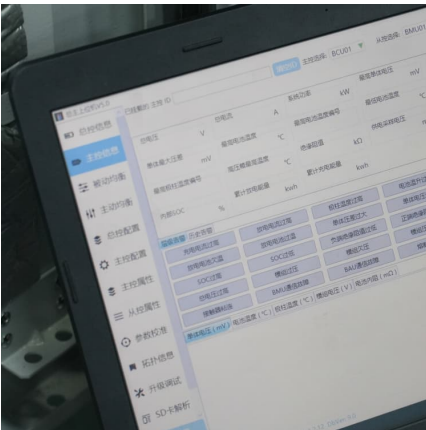

[Financing Solar and BESS Projects for Businesses](#)

These new options include services, flexible terms, zero-investment options, and even short-term exit options or partial contributions. These products are increasingly popular ...

Renewable Energy Transition Programme

Empower your renewable energy projects with tailored financing solutions. Explore funding for solar, wind, and green innovations to support Malaysia's transition to sustainable energy sources.

Enlight commissions solar-plus-storage project in New ...

As reported by Energy-Storage.news in July, Enlight closed financing for the 1.2GWh battery energy storage system (BESS) portion of the project, located in Albuquerque, New Mexico, US. Atrisco is the largest project ...

Sustainable Financing Framework

It is worth to mention that CFE has other financing schemes to complement its investments expenditures. The Board of Directors defines our five year business plan, determines our ...
