

Business energy storage supplier quotation in Belgium 2026

Overview

What is a battery energy storage system (BESS)?

Similar to last year, battery energy storage systems (BESS) made up almost all new-build capacity selected in recent Capacity Remuneration Mechanism (CRM) auctions in Belgium.

What is the future of energy storage in Europe?

2020: A key year for the future of energy storage in Europe The Energy System Integration Strategy, the Hydrogen Strategy and the Renovation Wave were released in 2020, supporting the growth of energy storage, including power-to-x, thermal storage and residential storage solutions.

Why is Belgium a good place to invest in a battery?

Other factors that make Belgium an appealing location for battery investments are the exemption of TSO grid fees and high revenues from balancing market (mainly FCR and aFRR),” Simon De Clercq, senior research associate at Aurora Energy Research, told ESS News.

Who is supplying a battery system for a 'giga-scale' energy storage project?

The batteries will be paired with 253 MW of solar energy generation. The battery systems will be supplied by Fluence, an energy storage technology provider co-owned by the AES Corporation and engineering solutions company Siemens. Highview Power in Chile, Latin America JV for 'giga-scale' liquid air energy storage projects.

Why is Belgium's storage fleet growing so fast?

Belgium's storage fleet is growing at a fast pace, not the least due to the opportunity to secure contracted revenues via its CRM auctions. On the last day of October, system operator Elia published the results of the CRM auctions held this year, showing that a total of 450 MW of BESS had secured contracts.

How much battery capacity will be paid by winter 2028-2029?

Aurora Energy Research calculates that over the past CRM auction rounds, 1.1 GW of new-build battery capacity was selected to receive capacity payments by winter 2028-2029. Over the past four auction rounds, a total of 13 new large-scale BESS projects were selected, with ENGIE, Storm, and GIGA Storage securing the largest contracts.
