

Business energy storage tender price in Belgium 2026

Overview

Why is Belgium a good place to invest in a battery?

Other factors that make Belgium an appealing location for battery investments are the exemption of TSO grid fees and high revenues from balancing market (mainly FCR and aFRR),” Simon De Clercq, senior research associate at Aurora Energy Research, told ESS News.

What funding is available for R&I projects in Belgium?

Belgium: Energy Transition Fund. Support for R&I projects for energy. In this context, several publicly funded R&I projects which also include storage, are being performed by Belgian research centres. The funding for energy related R&I projects in 2022 amounts to 25 million €.

How much battery capacity will be paid by winter 2028-2029?

Aurora Energy Research calculates that over the past CRM auction rounds, 1.1 GW of new-build battery capacity was selected to receive capacity payments by winter 2028-2029. Over the past four auction rounds, a total of 13 new large-scale BESS projects were selected, with ENGIE, Storm, and GIGA Storage securing the largest contracts.

Why is Belgium's storage fleet growing so fast?

Belgium’s storage fleet is growing at a fast pace, not the least due to the opportunity to secure contracted revenues via its CRM auctions. On the last day of October, system operator Elia published the results of the CRM auctions held this year, showing that a total of 450 MW of BESS had secured contracts.

When is the Energy Storage Summit 2024?

Energy-Storage.news’ publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 21-22 February 2024. This year it is moving to a larger venue, bringing together Europe’s leading investors, policymakers, developers, utilities, energy buyers and service providers all in one place. Visit

the official site for more info.
