How do customers book gas storage facilities in the Czech Republic?

Customers using gas storage facilities in the Czech Republic book: Storage capacity, injectability, and deliverability with the storage system operator for gas delivered to and from the storage facility. Bookings are made in auctions organized by the applicable storage system operator.

Why is Czech energy-accumulation so expensive?

According the report, the main reason is the regulatory framework biased in

favor of classical energy models. The Czech Republic is no exception. It is fair to say that none of available energy-accumulation technology is perfect yet, and cost-effectiveness can be reached under specific conditions only.
