

Can storage save lives

Overview

Can safe storage of firearms save lives?

The safe storage of firearms can save lives. In 2020, firearm-related injuries became the leading cause of injury deaths for children and teens ages 1-19; firearms are used in nearly half of suicides by minors; and the majority of individuals who carried out a K-12 mass shooting obtained the firearms used in the shooting from a family member.

Why is safe storage important?

Safe storage also protects adults by preventing unintentional shootings and decreasing the risk of gun suicides, gun thefts, and criminal discharges of firearms. This model legislation provides a framework for states to consider as they determine whether and how to craft laws mandating the safe storage of firearms.

What is safe and secure storage?

Safe and secure are two complementary components: Safe means unloaded, and secure means locked up. Putting these two together, the most quintessential safe and secure storage is a gun being unloaded, locked in a gun safe or lockbox, and the ammunition is stored separately.

Why is safe and secure storing firearms important?

Safely and securely storing firearms can reduce gun injuries and deaths, and is a practice supported by researchers, health care professionals, and gun owners alike. Responsible gun ownership is not only about how, where, and when a person uses their firearm; it's also about how they store it when not in use.

Do Gun Owners practice safe and secure firearm storage?

However, only about half of gun owners practice safe and secure firearm storage. Cassandra Crifasi, PhD '14, MPH, co-director of the Johns Hopkins

Center for Gun Violence Solutions and a gun owner herself, explains best practices for safely and securely storing firearms and how doing so reduces injuries, homicides, and suicides, and mass shootings.

Do people see value in safe storage?

The findings did highlight that, although people don't see much value in safe storage, where they did see value in it was more in unintentional shootings, and to an extent in suicide prevention. So when we are thinking about how to message this we shouldn't shy away from those outcomes.
