

# **Cheapest Solar Inverter installation offer in Malaysia**

## Overview

---

Which solar inverter should I buy in Malaysia?

It is much better to pay a little bit more and get a reputable brand that has been servicing the Malaysian market for a few years such as Canadian Solar, Longi or Jinko. You can also choose to opt for a European made inverter and pair this with a premium solar panel.

How much does it cost to maintain solar panels in Malaysia?

If you need help with maintaining your solar panels in Malaysia, they typically range from RM250 to RM700 per visit. As part of the maintenance session the solar panel pros will give your panels a clean, while also running tests on your inverters and breakers.

Should you install solar panels in Malaysia?

Additionally, you're helping the planet. In Malaysia's climate where it is sunny all year round, installing solar panels for your home can help you save energy and costs. However, how much you save is dependent on your roof size and site conditions.

Which solar panels are best in Malaysia?

Tip: Typically, the larger the solar system, the faster the payback period (ROI). Solar Panel Brand Top brands in Malaysia include Jinko, Trina, Longi, and JA Solar. Premium panels offer better warranties, higher efficiency, newer technology, and a longer brand history.

Should you buy a solar inverter?

If you choose to get a more expensive inverter you'll be able to produce more electricity which means more savings for your home. For a typical home solar panel system you will need about 15 - 25 solar panels to generate 6kW.

Can solar panels save money in Malaysia?

In Malaysia's climate where it is sunny all year round, installing solar panels for your home can help you save energy and costs. However, how much you save is dependent on your roof size and site conditions. Find out how much you can potentially save with our solar calculator tool.
