

# **China s energy storage battery field shipments**

## Overview

---

According to a survey conducted by the China Energy Storage Research Institute (GGII), in the first half of 2024, China's energy storage lithium battery shipments reached 116GWh, an increase of 41% compared to the first half of 2023 when it was 87GWh.

According to a survey conducted by the China Energy Storage Research Institute (GGII), in the first half of 2024, China's energy storage lithium battery shipments reached 116GWh, an increase of 41% compared to the first half of 2023 when it was 87GWh.

it in rechargeable batteries for use at a later date. When energy is needed, it is released from the BESS to power demand to lessen any he integration of demand- and supply-side management. An augmented focus on energy storage development will substantially lower the curtailment rate of renewable.

China's lithium battery shipments totaled 786 gigawatt hours (GWh) in the first three quarters of 2024, up from 605 GWh in the same period in 2023, according to the latest data from Shenzhen-based research institute GGII. The capacity of shipped ESS batteries amounted to 216 GWh in the first three.

GMT EIGHT - GGII: The shipment volume of China's energy storage lithium batteries in the first half of 2024 is 116 GWh, and the estimated annual shipment volume is expected to exceed 240 GWh. GGII: The shipment volume of China's energy storage lithium batteries in the first half of 2024 is 116 GWh.

China, which already boasts the world's largest energy-storage capacity, is set to nearly double that level by 2027, with an anticipated investment of 250 billion yuan (US\$35 billion), according to Beijing's latest action plan. As outlined in the action plan, China's "new-energy storage system". How big is lithium energy storage battery shipment volume in China?

According to data, the shipment volume of lithium energy storage batteries in China in 2020 was 12GWh, with a year-on-year growth of 56%. It is expected

that the shipment volume will reach 98.6GWh by 2025, an increase of 721% compared to 2020.

What are the top 10 Chinese energy storage systems shipments in 2025?

In the first half of 2025, the Top 10 Chinese companies in terms of energy storage system shipments in the domestic market were, in order: CRRC Zhuzhou Institute, HyperStrong, Envision Energy, Sungrow, SCETL, XYZ Storage, ROBESTEC, XJ Electric, Goldwind, and ZTT.

How many energy storage battery companies are there in China?

According to incomplete statistics, there are more than 50 lithium energy storage battery enterprises in China at present.

Does China have a market advantage for battery storage systems?

ds, and service networks for battery storage systems. At present China does have some market advantages when it comes to the development of BESS infrastructure, including the supply chain related to global lithium-ion battery production.

How much energy storage does China have in 2023?

By the end of 2023, China had completed and put into operation a cumulative installed capacity of new type energy storage projects reaching 31.4GW / 66.9GWh, with an average storage duration of 2.1 hours. The newly added installed capacity in 2023 was approximately 22.6GW / 48.7GWh, which is three times that for 2022 (7.3GW / 15.9GWh).

Will China's energy storage capacity grow in 2021?

13.1GW, more than double the amount reached in 2021. Ahead and heading into a new era for new energy, it is expected that China's energy storage capacity and its BESS capacity in particular will grow at a CAGR rate of 44% between 2023 and 2027. Finally, BESS development financing globally thus far has stemmed from various sources: funds, corpor

## China's energy storage battery field shipments

---

### [2021 China Lithium Battery Industry Research and ...](#)

GGII data shows that China's lithium battery shipments in 2020 will be 143GWh, a year-on-year increase of 22%. It is expected that China's lithium battery ...

### [WHAT WILL CHINA'S ENERGY STORAGE BATTERY SHIPMENTS ...](#)

Forecasts on the Installed Capacity in China in 2024 TrendForce anticipates that China's new installed energy storage capacity will reach 29.2 GW/66.3GWh in 2024, marking a substantial ...

### [Top energy storage manufacturers of 2023 revealed](#)

The energy storage sector reached new heights in 2023, as showcased at the annual Energy Storage Carnival and the release of the Global Energy Storage Shipment ...

### **GGII: In 2024, China's Lithium Battery energy storage ...**

In 2024, the global shipment of Lithium Batteries for energy storage increased by over 55% year-on-year, while China's shipment of Lithium

Batteries for energy ...

[Industry News -- China Energy Storage Alliance](#)

Actively Exploring Energy Storage Application Scenarios In the era when the industry is fully shifting toward marketization, the reform of the ...

**CNESA:Lists of China's Companies Energy Storage (Battery) ...**

It is more significance development for China's energy storage In 2023. The annual growth rate of new energy storage set a new record,with two years ahead of schedule ...

**2025 ENERGY STORAGE FIELD SHIPMENTS**

Data show that China's energy storage lithium battery shipments increased from 3.5GWh in 2017 to 16.2GWh in 2020, with an average annual compound growth rate of 66.0%. China ...

### [The Latest Top 10 Global Battery Shipments in 2024](#)

The global power and energy storage battery market is in the midst of a fierce battle, led by Chinese companies, and the market landscape is undergoing profound changes. The latest ...

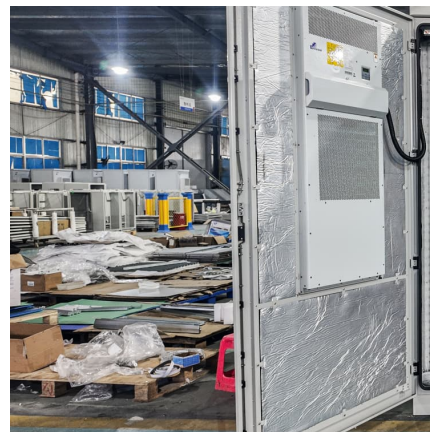

### **Surge in Demand for Energy Storage Cells in 2025: From ...**

According to the 2024 energy storage lithium battery shipment rankings released by GGII, global shipments of energy storage lithium batteries are projected to grow by over ...

### **China's BYD sets sights on crowning itself as global ...**

2023 marked a turning point for BYD as it began to double down on energy storage projects in the domestic market for ultra-low prices.

### **Q& A: How China became the world's leading market for energy storage**

Carbon Brief explores how China has been driving the energy storage sector forwards and how it fits into the nation's wider energy transition.

### Top 10 Global Power & Storage Battery Manufacturers 2024

CATL leads with 491GWh as China dominates 2024's 1.3TWh global battery shipments. See rankings, growth trends, and key players in power & energy storage.

### GGII: 2025H1 China's lithium battery shipments increased 68

The Zhitong Finance App learned that preliminary research data from the Advanced Industrial Research Institute (GGII) showed that China's lithium battery shipments in 2025H1 were 776 ...

### CHINA S ENERGY STORAGE FIELD SHIPMENTS

Research on spatial prediction of energy storage field in china This study utilizes collaborative energy storage patent data from 2013 to 2022 to construct a technology transfer network ...
