

Completion settlement of new energy storage projects

Overview

What is the implementation plan for the development of new energy storage?

In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.

How much money did energy storage companies raise in 2022?

In 2022, they accounted for 90% of global energy storage-related fundraising deals (China for 46%, the US for 31%, and Europe for 13% respectively), raising USD 2.9 billion, USD 2 billion, and USD 800 million, respectively (Figure).

How much does a superstition energy storage project cost?

\$196 million construction, term loan and letter of credit facility for the 90 MW / 360 MWh Superstition Energy Storage project in Gilbert, southeast of Phoenix. Capital partners praised the work as essential to maintaining a reliable grid while decarbonizing energy sources to combat climate change:.

Which energy storage project has the largest financing package?

Construction underway at the Sierra Estrella Energy Storage project in Avondale, Arizona, which just received the largest financing package for a single standalone energy storage project, worth \$707 million. (Image: Plus Power) Plus Power LLC announced completion of \$1.8 billion in new financing for standalone battery storage.

Why do energy storage projects need project financing?

The rapid growth in the energy storage market is similarly driving demand for project financing. The general principles of project finance that apply to the financing of solar and wind projects also apply to energy storage projects.

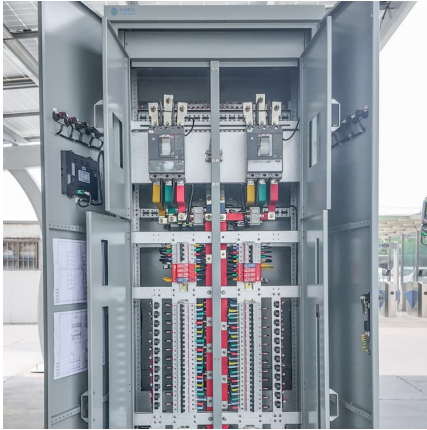

Will a tax credit be available for energy storage projects?

However, with the passage of the Inflation Reduction Act of 2022, tax credits are now available for standalone energy storage systems, and thus lenders may be willing to provide bridge capital that is underwritten based on the receipt of proceeds from an anticipated tax equity investment, similar to renewable energy projects.

Completion settlement of new energy storage projects

[PSC Approves Energy Storage Implementation Plan](#)

The Roadmap kicked off programs toward procuring an additional 4.7 gigawatts of new storage projects across the bulk (large-scale), retail (community, commercial and ...

ORRICK ENERGY STORAGE UPDATE

INTRODUCTION By any measure, 2020 served as a banner year for the global energy storage market, despite significant challenges posed by the COVID-19 pandemic. Investment in ...
