

# **Container energy storage project financing options in Ukraine 2025**

## Overview

---

Why is DTEK launching a battery storage facility in Ukraine?

REUTERS/Valentyn Ogirenko/File photo Purchase Licensing Rights KYIV, Sept 11 (Reuters) - Ukrainian private energy firm DTEK has launched the country's largest battery storage facility to ensure stable power supplies in the face of Russian attacks on Ukraine's energy sector, the company said on Thursday.

How important are energy storage systems in Ukraine?

"In the context of large-scale attacks on Ukraine's energy system, the role of energy storage systems has become just as fundamental as energy generation itself," said energy minister Svitlana Grinchuk. (\$1 = 0.8554 euros).

What does DTEK's new energy storage system mean for Ukraine?

The new project aims to strengthen Ukraine's energy security and support the transition to a greener energy system. DTEK Group aims to commission the new storage systems by September 2025.

Why is DTEK investing €140m in a battery energy storage system?

(Credit: DTEK) DTEK Group, a private investor in Ukraine's energy sector, has announced a €140m investment plan to construct a series of battery energy storage systems (BESS) in the country with a combined capacity of 200MW. The new project aims to strengthen Ukraine's energy security and support the transition to a greener energy system.

When will DTEK's new energy storage systems be operational?

DTEK Group aims to commission the new storage systems by September 2025. Once operational, these energy storage facilities will provide ancillary services to Ukraine's Transmission System Operator Ukrenergo.
