

# Cost of home solar batteries

## Overview

---

How much does a solar battery cost?

Historically, solar batteries have had a reputation for being prohibitively expensive, with many recorded instances where adding storage doubled the cost of a home solar installation. You can expect to pay between \$7,000 and \$18,000 for a solar battery.

How much does it cost to install a solar battery in 2025?

The average cost to install a solar battery in 2025 is between \$9,000 and \$19,000, with the average homeowner paying around \$13,000 on average.

How much does a solar battery storage system cost?

The cost of a solar battery storage system for your home can range from as low as \$300 to more than \$20,000, depending on the size of your home, quality of the storage system, and energy consumption. Most systems typically cost around \$10,000 on average.

How much does solar battery maintenance cost?

The cost to hire a local solar company to inspect and maintain your battery system is anywhere between \$150 and \$300 on average. Solar batteries last longer when you maintain them regularly. Maintenance includes an inspection, rotating the batteries, and cleaning the terminals.

Is solar battery storage worth the cost in 2025?

Whether solar battery storage is worth the cost in 2025 is totally up to you and your energy goals. If you experience frequent or long-lasting power outages, then having battery storage for backup power can be a game-changer in keeping you safe, productive, and comfortable (not to mention keeping your food from spoiling!).

How much does a solar battery backup cost?

To ensure power for larger appliances or longer periods, you'll need to invest in multiple batteries. The cost of installing a solar battery backup system is anywhere from \$300 to \$15,000, with an average cost of \$6,000 for an entire home installation.
