

# **Ctek solar battery charger**

## Overview

---

What is CTEK CS free?

Where others have diversified, we remain focused on maximizing battery performance. CTEK's CS FREE is the world's first multi-functional portable battery charger and smart maintainer with Adaptive Boost technology. You can charge and maintain any 12V lead acid or lithium battery anywhere using a power outlet, solar or leisure battery power.

Can a CTEK unit charge a lithium battery?

Please note: If used with a lithium battery and the BMS shuts down the inputs/outputs to the battery (e.g. in an under-voltage condition), this CTEK unit will not 'wake up' the BMS and so will not be able to charge the battery (this is because the CTEK unit needs to see a minimum battery voltage to commence charging).

What makes CTEK d250se a great battery charger?

Where others have diversified, we remain focused on maximizing battery performance. CTEK's D250SE is a fully automatic, 5-step on-board battery charger and maintainer. It supplies up to 20A of power to any 12V lead-acid or lithium (LiFePO4) service battery from 40-300Ah and has selectable charge algorithms for AGM and lithium batteries.

Does the CTEK d250se have a solar panel regulator?

The D250SE also has a built-in solar panel regulator with Maximum Power Point Tracking (MPPT) to optimize the available power. The D250SE is compatible with CTEK's SMARTPASS 120S for the ultimate onboard charging system. Providing up to 20A of power whilst on the move.

Is there a CS free battery charger?

There's nothing else like the CS FREE on the market. It combines CTEK's version of "boost", plus a 12 volt smart charger, and a built in power bank. It

will auto sense what kind of battery you have, and charge it accordingly. I don't leave home without it!

Is CTEK a good battery management company?

Great unit. 12v Planet very good service. CTEK is a global leader in battery management technology with a huge following in the campervan, motorhome and overland markets. This innovative Swedish company continues to improve and shape the battery management industry with its research and development, which is at the heart of all its products.
