

# Current situation of ukrainian lithium battery energy storage companies

## Overview

---

IPP DTEK Group and system integrator Fluence have together put a 200MW/400MWh BESS portfolio in Ukraine into commercial operation, a milestone praised by the country's energy minister Svitlana Grinchuk.

IPP DTEK Group and system integrator Fluence have together put a 200MW/400MWh BESS portfolio in Ukraine into commercial operation, a milestone praised by the country's energy minister Svitlana Grinchuk.

DTEK's Fluence Gridstack battery units at one of six energy storage sites across Ukraine, part of the country's largest battery energy storage project announced on July 10, 2025. (DTEK press service) DTEK, Ukraine's biggest private energy company, has begun final commissioning of the country's.

Ukrainian private utility DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 MW/400 MWh installation spans six sites ranging from 20 MW to 50 MW and connected to the power grid in the Kyiv and Dnipropetrovsk regions.

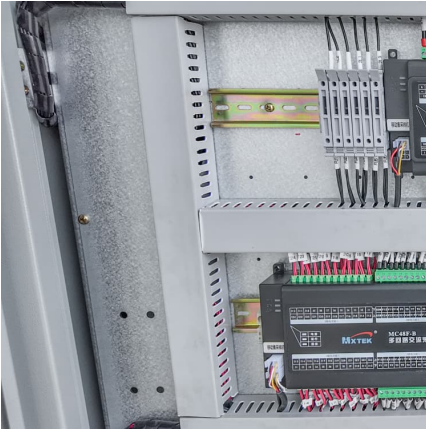

IPP DTEK Group and system integrator Fluence have together put a 200MW/400MWh BESS portfolio in Ukraine into commercial operation, a milestone praised by the country's energy minister Svitlana Grinchuk. The six battery energy storage systems (BESS) range from 20MW to 50MW each, have been connected.

Let's talk about Ukrainian energy storage battery exports – the dark horse of Europe's renewable energy transition. In 2023 alone, Ukraine shipped over \$420 million worth of lithium-ion batteries globally, marking a 67% year-on-year increase. Not bad for a market that didn't even crack the top 20.

DTEK Group, Ukraine's largest private energy company, teamed up with Fluence, a joint venture of Siemens and AES, to launch the country's largest battery energy storage system with a 200 megawatt (MW) capacity. The project includes six sites, each with 20 MW to 50 MW, and can store up to 400.

## Current situation of ukrainian lithium battery energy storage compa

### [Ukrainian lithium iron phosphate battery manufacturer](#)

Why does Ukraine need a battery industry? "Ukraine has a large estimated need for batteries over the next years to help stabilise their energy system," the company added. Norway has said it is ...
