

Does guodian nanning have its own pumped storage business

Overview

The Nanning Wuming pumped storage power station project is a key implementation project of the national pumped storage medium and long-term development plan, and it is also the second pumped storage project in Nanning.

The Nanning Wuming pumped storage power station project is a key implementation project of the national pumped storage medium and long-term development plan, and it is also the second pumped storage project in Nanning.

This project marks the initiation of pumped storage power station construction in South China under the "14th Five-Year Plan". With an estimated total investment of around 8 billion yuan, the power station is set to commence electricity generation in 2025. The Nanning Pumped Storage Power Station.

The power station has an installed capacity of 1.2 million kilowatts (4 reversible pumped storage units with a single unit capacity of 300,000 kilowatts), a rated water head of 460 meters, and a total investment of about 8 billion yuan. The main buildings of the power station include upper.

The project is being developed and currently owned by China Southern Power Grid. The company has a stake of 100%. Nanning is a pumped storage project. The hydro reservoir capacity is planned to be 12.4 million cubic meter. The project construction is expected to commence from 2022. Subsequent to.

At 9:47 p.m. on May 26, the successful third energization of the 500kV Nanning Pumped Storage Power Station-Yongning Station Line A marked the official commissioning of the 500kV transmission line project supporting Guangxi's first pumped storage power station, the Nanning Pumped Storage Power.

Guodian Nanjing Automation Co., Ltd. was established as a joint stock limited company in 1999. The promoter to the establishment of the company is State Electric Co. Nanjing Electric Automatic Equipment Head Plant. With the approval of China Securities Regulatory Commission, the company's A shares.

The 14th Five-Year Plan is a new stage in the development of renewable energy, and the construction of pumped storage power stations will further promote the green and sustainable development of the energy industry. A few days ago, the pre-feasibility study report review meeting of Wuming Pumped.

Does guodian nanning have its own pumped storage business

[Does guodian power have energy storage](#)
