

Ecoflow battery with solar panel

Overview

EcoFlow OCEAN Pro gives you reliable, AI-powered energy storage that works with solar, the grid, and generators. With 40kW solar input, EcoFlow OCEAN Pro utilizes more rooftop solar to store extra energy, cut bills, and power your home longer.

EcoFlow OCEAN Pro gives you reliable, AI-powered energy storage that works with solar, the grid, and generators. With 40kW solar input, EcoFlow OCEAN Pro utilizes more rooftop solar to store extra energy, cut bills, and power your home longer.

EcoFlow OCEAN Pro gives you reliable, AI-powered energy storage that works with solar, the grid, and generators. With 40kW solar input, EcoFlow OCEAN Pro utilizes more rooftop solar to store extra energy, cut bills, and power your home longer. Using a generator cord, it can even charge your system.

Using EcoFlow smart generator, it charges 80% in 40 mins and fully in 56 mins. Hybrid charging (AC + solar) also achieves the same speed. Durable and Reliable for 10 Years. Powered by LiFePO4 (LFP) cells, with 4000 cycles to 80%, offering 25% more durability than industry standards. Enjoy a 10-year.

Introducing the world's first portable home battery with an expandable ecosystem for home backup, smart energy management, lower energy bills, and more. The EcoFlow Delta Pro & Expansion Battery Kit - 7200 WH with Rich Solar 400 Watt Panel Kit stores 7,200 Watt Hours! Access power security and.

Maximize your rooftop solar and reduce electricity bills with EcoFlow OCEAN Pro, a grid-tied solar energy battery storage solution. Seamlessly integrates solar, grid, and gas generator recharging to deliver reliable backup, energy savings, and greater independence. With up to 40kW solar input.

The new EcoFlow OCEAN Pro Solar Battery System is designed to do more than just keep the lights on. It's a powerful, all-in-one energy solution that combines solar energy storage, backup power, and intelligent energy management to support an entire home, even during extended outages or peak energy.

While EcoFlow produces its own line of solar panels, many users wonder if they can connect third-party panels to their EcoFlow power stations/solar generators. The answer to that question is: Yes, as long as the panel's voltage is compatible with the solar charge controller in the power station. In.
