

Energy storage equipment brand business won the bid for energy storage

Overview

On March 18, Huadian Group, one of the five largest state-owned power generation enterprises in China, released the list of the winning bidders in its 2025 procurement seeking a cumulative 6 GWh of battery storage.

On March 18, Huadian Group, one of the five largest state-owned power generation enterprises in China, released the list of the winning bidders in its 2025 procurement seeking a cumulative 6 GWh of battery storage.

Turbo Energy S.A. (NASDAQ: TURB) stock skyrocketed Tuesday after the company announced it won a \$53 million contract to deliver energy storage projects in Spain with a total capacity of 366 MWh over the next two years. The deal involves more than 10 sites operated by a major construction industry.

The procurement exercise has attracted 67 battery energy storage companies but only six have emerged as winners. The average bid stood at CNY 0.473/Wh (\$65/kWh). Public procurements in China continue to demonstrate exceptionally low price levels for lithium-ion phosphate (LFP) battery energy.

Recently, on the electronic procurement trading platform of China Southern Power Grid, China Southern Power Grid Power Technology Co., Ltd. released the announcement of winning candidates for the procurement of energy storage system supporting equipment framework. Among them, Zhuhai Kortrong Energy.

Recently, Zhongdian Energy Storage Technology Co., Ltd. has won multiple large-scale energy storage projects in succession. On August 26th, Shandong Electric Times, a subsidiary of the company, successfully won the bid for the 400MW/1600MWh independent energy storage project in Balinzuoqi, Chifeng.

Which companies have won the bid for large-scale energy storage?

1. Numerous corporations have successfully secured contracts for large-scale energy storage initiatives, including prominent names such as Tesla, Fluence, and AES Corporation. 2. These companies have made significant

advancements in.
