

Energy storage product series discount rules

Overview

What are the different types of energy storage incentives?

In addition, there are other types of energy storage incentives that have been tried. For example, storage may be added to existing renewable programs, such as solar incentive programs, or be made eligible for market-based programs such as utility renewable portfolio standards (RPS).

What are energy storage incentive programs?

The energy storage incentive programs considered in this report fall into three categories: 1. Rebates (payment for installing storage) 2. Performance incentives (payment for storage services provided to a utility or grid operator) 3.

Are incentive rates good for energy storage?

For example, New York offers relatively low per-kWh incentive rates, but its programs are nearly fully subscribed. By contrast, Connecticut offers relatively high incentive rates but its residential program has been under-subscribed. • Incentive rates alone do not convey a comprehensive economic story for energy storage in a state.

How much do state energy storage incentives cost?

- At the time of this report, average residential/small commercial energy storage incentive rates for the state programs examined ranged from \$350/kWh to \$1,333.33/kWh, with a mean rate of \$805/kWh.
- State policymakers should consider combined up-front and performance-based incentives.

What incentives should be offered for battery storage?

To provide the broadest set of options and make battery storage widely accessible, incentives should be offered for both owned and leased systems as well as other models, such as power purchase agreements and community

storage models, that satisfy equity requirements. Commercial vs. Residential Battery Incentives.

What are examples of energy storage equity provisions?

Examples of energy storage equity provisions include the following: • Justice40 commitment/Carve-out. Typically, a carve-out is necessary to ensure historically overburdened communities and income-eligible customers can participate in energy storage incentive programs.
