

Energy storage soaring

Overview

TradingKey - Fueled by China's new energy storage doubling plan and supportive auto supply chain policies, investor interest in the energy storage sector has surged.

TradingKey - Fueled by China's new energy storage doubling plan and supportive auto supply chain policies, investor interest in the energy storage sector has surged.

Founded in 2002 in Beijing's Z-Park by a group of visionary Tsinghua University alumni, Soaring Electric Technology was built on the founding mission of "serving the country through technology." Since then, the company has grown into a national high-tech enterprise, focused on bridging domestic.

China aims to install over 180 million kW of new energy storage capacity by 2027, driving about RMB 250 billion (\$35 billion) in direct project investment. CATL shares in Hong Kong surged as much as 10 percent to HK\$476.8, hitting a record high since its May 20 listing there. CATL (HKG: 3750, SHE:.

TradingKey - Fueled by China's new energy storage doubling plan and supportive auto supply chain policies, investor interest in the energy storage sector has surged. With Morgan Stanley and JPMorgan issuing bullish calls, global battery leader CATL (Contemporary Amperex Technology Co. Limited) saw.

China, which already boasts the world's largest energy-storage capacity, is set to nearly double that level by 2027, with an anticipated investment of 250 billion yuan (US\$35 billion), according to Beijing's latest action plan. As outlined in the action plan, China's "new-energy storage system".
