

Energy storage vocational training

Overview

What is energy storage training?

By taking the Energy Storage training by Enoinstitute, you will learn about the concept of energy, how to store energy, types of energy-storing devices, the history of energy storage systems, the development of energy storage by 2050, and long-term/short-term storage.

What are DNV training courses on energy storage (systems)?

DNV training courses on energy storage (systems) will increase your understanding of the technical, market and financial aspects of grid-connected energy storage, as well as the associated risks.

What is the solar and energy storage training course?

This three day training course on solar and energy storage will provide insight into the latest energy transition outlook for both solar and storage technologies. For more information please refer to the leaflet . This course is available on request. Content, location and duration of the course can be adapted to your specific wishes.

What are energy storage courses?

Courses cover the energy storage landscape (trends, types and applications), essential elements (components, sizing), technical and project risks, and the energy storage market. Additionally, we can provide combined courses covering wind, solar and/or grid-connection as well.

What can I learn from DNV's Energy Storage Essentials course?

DNV will provide you with examples and present our view on best practices for energy storage using our industry supported GRIDSTOR methodology. Your benefits On completing DNV's energy storage essentials course, you will be able to identify opportunities and risks for grid-connected energy storage in your business.

Is energy storage a good investment for your business?

With the grid-connected energy storage market maturing and commercial projects starting up, companies in different sectors are increasingly interested in the potential of energy storage for their business. But insight into technical, market and financial aspects is essential to realizing that potential.
