

Ep solar duo battery solar controller

Overview

Dual battery PWM solar controller charges 2 independent batteries from a single solar array. Battery voltage auto detect 12V and 24V. Built in Overcharge, Deep discharge and Equalisation Charge to prolong battery life. Control and Monitor with PC Software. Price excludes VAT and.

Dual battery PWM solar controller charges 2 independent batteries from a single solar array. Battery voltage auto detect 12V and 24V. Built in Overcharge, Deep discharge and Equalisation Charge to prolong battery life. Control and Monitor with PC Software. Price excludes VAT and.

Our Duo Solar Charger will charge 2 separate and isolated battery banks simultaneously. This eliminates the added cost needed for two separate controllers and panels for instance if you wanted to charge both the leisure battery and engine starter battery in a motorhome. Suitable for 12v and 24v and.

EPIPDB-COM series is ideal for use with motorhomes, caravans, boats or anywhere there are two independent batteries for instance a starter battery and a leisure battery. The Charging percentages for each battery can be set manually if required. 12/24V auto Battery type selection: Sealed, Flooded or.

Dual battery charging capability making it great for RVs, caravans, and boats. With its advanced PWM charging technology, your batteries will be protected from discharging and over-charging. MT-1 Wall mounting board, can be mounted in or on the wall. With 10 meter cable, LCD display with two levels.

Dual battery PWM solar controller charges 2 independent batteries from a single solar array. Battery voltage auto detect 12V and 24V. Built in Overcharge, Deep discharge and Equalisation Charge to prolong battery life. Control and Monitor with PC Software. Price excludes VAT and delivery fees.

i recently carried ou work had to disconect the leisure battery from solar panel both leds used to come on flashing but leisure bat is not lighting up on control panel i think the 2 wires touched when i pulled it out through panel but the other led is just staying on have i done anything wrong.

These solar controllers are designed for use with solar panels to charge batteries in RVs, Caravans, and boats. The controllers feature automatic 12/24V detection, dual battery charging, remote temperature sensing and a communication port for remote monitoring. INSTRUCTION MANUAL -----.

Ep solar duo battery solar controller

INSTRUCTION MANUAL

While battery #1 is fully charged, more charge current will be diverted to battery #2, and return to the setting charging automatically when the battery #1 is in low voltage.

EP SOLAR EPIPDB-COM 10A, 12/24V auto-work, 20A, 12/24V auto-work Duo

These solar controllers are designed for use with solar panels to charge batteries in RVs, Caravans, and boats. The controllers feature automatic 12/24V detection, dual battery ...

[Solar Panel PWM Charge Controller PWM dual bank ...](#)

This option will increase battery life by 100-200 charge/discharge cycles. The sensor plugs into the Dual Bank Battery Controller and is attached to the top of a battery in the battery bank with tape.

Solar Panel PWM Charge Controller PWM dual bank controller

This option will increase battery life by 100-200 charge/discharge cycles. The sensor plugs into the Dual Bank Battery Controller and is attached

to the top of a battery in the battery bank with ...
