

# **Expected ROI of ESS container project in Argentina 2026**

## Overview

---

How many container ports are there in Argentina in 2022?

Container port traffic (TEU: 20 foot equivalent units) in Argentina was reported at 1667161 in 2022, according to the World Bank collection of development indicators, compiled from officially recognized sources.

What is containerized ESS?

The Containerized ESS is a technically mature solution that answers to shipowners' demand to retrofit vessel power distribution systems and add a battery of significant capacity. The pre-assembled and factory-tested equipment and cabling make the Containerized ESS solution easy to integrate with all vessel sub-systems.

What is container port traffic in Argentina?

Argentina - Container port traffic (TEU: 20 foot equivalent units) - actual values, historical data, forecasts and projections were sourced from the World Bank on August of 2025. Port container traffic measures the flow of containers from land to sea transport modes, and vice versa, in twenty-foot equivalent units (TEUs), a standard-size container.
