

Expected ROI of containerized BESS project in Ireland 2030

Overview

What challenges does Ireland's Bess market face?

According to Bobby Smith, head of Energy Storage Ireland (ESI), one of the main obstacles Ireland's BESS market faces is the lack of route to market for battery operators. "A lot of energy storage has crept under the radar so far in Ireland," he told ESS News. Developers secure planning quite easily but the route to market is a challenge.

What factors affect the ROI of a Bess?

External Factors that influence the ROI of a BESS The cost of electricity, including peak and off-peak rates, significantly impacts the ROI. Energy storage systems can store cheaper off-peak energy for use during expensive peak periods.

What will Rystad expect from Bess deployments in 2022?

Rystad expects annual BESS deployments to grow by an average CAGR of 33% between 2022 and 2030, across all market segments including residential, commercial and grid-scale. From 43GWh of deployments last year, the firm is anticipating some 421GWh of new capacity to come online in 2030.

How good is Ireland's energy storage strategy?

Smith pointed out that Ireland's energy storage strategy, published in 2024, was "quite positive." A lot of high-level plans and a technology agnostic outlook. "Unfortunately, we haven't seen a lot of progress on those actions which is a problem we are trying to address," said Smith.

What is Rystad Energy's forecast for Global Bess installations?

Rystad Energy's forecast for global BESS installations over the coming decade. Image: Rystad Energy. Annual battery energy storage system (BESS) installations will grow by 10x between 2022 and 2030, according to research

firm Rystad Energy.

Why did Bess cost so much last year?

The increase in BESS costs last year was well-documented by Energy-Storage.news, with one industry leader telling us that the cost base had grown 25% year-on-year, driven by battery cells. Another research outlet BloombergNEF said that BESS costs have fallen by 2% in the last six months, in a note published last week (7 June).
