

Expected ROI of containerized BESS project in Switzerland 2030

Overview

What is Rystad Energy's forecast for Global Bess installations?

Rystad Energy's forecast for global BESS installations over the coming decade. Image: Rystad Energy. Annual battery energy storage system (BESS) installations will grow by 10x between 2022 and 2030, according to research firm Rystad Energy.

What will Rystad expect from Bess deployments in 2022?

Rystad expects annual BESS deployments to grow by an average CAGR of 33% between 2022 and 2030, across all market segments including residential, commercial and grid-scale. From 43GWh of deployments last year, the firm is anticipating some 421GWh of new capacity to come online in 2030.

What factors affect the ROI of a Bess?

External Factors that influence the ROI of a BESS The cost of electricity, including peak and off-peak rates, significantly impacts the ROI. Energy storage systems can store cheaper off-peak energy for use during expensive peak periods.

How big is the Bess market in 2023?

This segment is expected to capture 86% of the total BESS market by 2030, driven by massive grid-scale deployments worldwide (McKinsey, 2023). In Europe alone, BESS capacity has grown from a mere 0.2 gigawatt hours in 2014 to 35.9 gigawatt hours in 2023, with the capacity curve growing increasingly vertical (Statista, 2025a).

How big is the Bess market?

The Market Is Booming The numbers tell a compelling story of explosive growth. The global BESS market valued at approximately \$44-55 billion in 2023 is projected to nearly triple to \$120-150 billion by 2030 (Statista, 2025b).

Why did Bess cost so much last year?

The increase in BESS costs last year was well-documented by Energy-Storage.news, with one industry leader telling us that the cost base had grown 25% year-on-year, driven by battery cells. Another research outlet BloombergNEF said that BESS costs have fallen by 2% in the last six months, in a note published last week (7 June).

Expected ROI of containerized BESS project in Switzerland 2030

Containerized Battery Energy Storage System (BESS) Market ...

The projection of the containerized BESS market growing from "USD 13.87 billion in 2025 to USD 35.82 billion by 2030" serves as a direct measure of the financial flows ...

Containerized Battery Energy Storage System (BESS) Market ...

/PRNewswire/ -- The global containerized BESS market is projected to grow from USD 13.87 billion in 2025 to USD 35.82 billion by 2030, at a CAGR of 20.9%
