

Expected ROI of nickel manganese cobalt battery project in Bangladesh 2025

Overview

How big is the nickel manganese cobalt battery market?

The nickel manganese cobalt battery market size exceeded USD 30.5 billion in 2024 and is estimated to exhibit 14.8% CAGR between 2025 and 2034 driven by growth in renewable energy sector.

What drives the growth of nickel manganese cobalt (NMC) battery market?

This drives the growth of the nickel manganese cobalt (NMC) battery market. As the nickel manganese cobalt (NMC) batteries are widely used various government authorities have established favorable policies to ease the supply and regulate cost of minerals including Nickel and Cobalt.

Who are the key players in the nickel manganese cobalt (NMC) battery market?

Market players including CATL, Clarios, Exide Technologies, Tesla, Saft are the top 5 companies in the nickel manganese cobalt (NMC) battery market. The key 5 players hold nearly 40% of market share. Among these, CATL is one of the major share holding player in the market.

How much is the NMC battery market worth in 2022?

The NMC market reached USD 21.9 billion, USD 25.8 billion, and USD 30.5 billion in 2022, 2023 and 2024 respectively. The nickel manganese cobalt (NMC) battery market has been observing significant growth due to growing demand for efficient batteries from different industrial applications such as EV, ESS and many more.

How big is the NMC battery market?

The U.S. NMC battery market is projected to exceed USD 35.2 billion by 2034, led by federal and state incentives, stricter emission regulations, and the push for energy grid modernization and renewable energy integration. What is the size of the automotive segment in the NMC battery market?

How resilient is the cobalt market?

While some segments of the cobalt market show resilience, overall contraction is expected to persist. According to S&P Global data cited by NASDAQ, NMC batteries held just 24.6% of the market in Q3 2024, while LFP batteries commanded a dominant 75.2% share.
