

Freyr battery trina solar

Overview

Who owns Trina Solar & Freyr battery?

The morning after the U.S. presidential election, Trina Solar and FREYR Battery announced an agreement for FREYR to acquire the U.S. solar manufacturing assets of Trina Solar, specifically the 5 GW, 1.35 million sq ft solar module manufacturing facility in Wilmer, Texas, that started production on Nov. 1, 2024.

Where is Freyr acquiring Trina Solar?

Under the terms of the agreement, FREYR will acquire Trina Solar's 5 GW solar module manufacturing facility in Wilmer, Texas, which started production on November 1, 2024. The facility is expected to ramp up to full production in 2025 with 30% of estimated production volumes backed by firm offtake contracts with U.S. customers.

Does Trina Solar still use Freyr?

Trina noted that the companies will form a "multi-stage strategic cooperation plan" for the long-term, and that modules produced at the facility will still use the Trina Solar brand. Part of this plan includes changes to the Freyr board.

How much does Freyr pay for a new solar plant?

Freyr will pay \$340 million for the Wilmer, Texas, facility. It also plans to begin construction next year on another 5 GW solar manufacturing facility. "Domestic manufacturing capacity for solar and batteries is essential for energy transition and job creation," said Daniel Barcelo, Freyr's CEO.
