

Geekvape aegis solo battery cap 18650

Overview

What is geekvape S100 (aegis solo 3) vape mod kit?

Geekvape S100 (Aegis Solo 3) Vape Mod Kit is powered by a robust battery and offer a high output and long-time use.

What battery does geekvape aegis solo 3 use?

Geekvape Aegis Solo 3 Kit is powered by an external 18650 battery and has a wide range of output power for different vaping styles and e-juice. * U.S.A Warehouse shipping from the United States, and only ship to US * Free shipping for orders from U.S.A. warehouse, and subtotal over \$95 after discounts.

Does aegis solo 3 come with a geekvape Z sub ohm tank 2021?

The Aegis Solo 3 kit comes with the Geekvape Z Sub-Ohm Tank 2021. This is a tank that Geekvape has been producing for quite some time now and there's a reason why it's still being included even with their latest devices - it's really good. The kit comes with two bubble glasses which each give the tank a 5.5ml ejuice capacity.

What is the geekvape aegis solo?

The Geekvape Aegis Solo is the latest in a line of waterproof/shockproof Aegis mods. The word Aegis doesn't mean alot to me, and perhaps not you either, but apparently The Aegis was an Animal skin, or shield, bearing the head of Gorgon and was carried around by Athena and Zeus in Greek Mythology.

Is a single battery better than a high-capacity 18650?

The single battery version can be just as good with a high-capacity 18650. The single battery version also has the added bonus of being able to swap batteries in an instant, giving you a fully charged device again.

Which geekvape ejuice tank should I buy?

If you opt for the kit then you'll also get the Geekvape Z Sub-Ohm Tank 2021, which is one of Geekvape's best and most popular tanks. This tank has a top airflow system, a 5.5ml ejuice capacity, and it's compatible with all of Geekvape's many Z series coils. The Aegis Solo 3 is much more refined in its design than previous Solo devices.
