## Overview

---

Does Cape Town need a more resilient energy system?

sure a more resilient energy system in Cape Town. The demand for energy is determined by the investments and behaviours of the City, residents, and businesses in Cape Town. The overall energy demand of Cape Town is made up of the liquid fuels, gas, and electricity used in the transport sector, buildings.

What is Cape Town's energy strategy?

TY OF CAPE TOWN  
FOREWORD FROM THE EXECUTIVE MAYOR  
With this Energy Strategy, Cape Town is charting the long-term path to 2050, as we make the great transition from centralised supply of unreliable, costly and fossil fuel-based Eskom energy, to an increasingly decentralised supply of reliable, cost-effective, carbon-

What does energy security mean for Cape Town?

2050: Energy Security for a prosperous Cape Town. This vision is underpinned by four principles that describe the kind of energy system Cape Town needs – a resilient energy system that can provide reliable, affordable and carbon-neutral energy to everyone. It is a vision that is shaped by key shifts and stresses to be navigated, among a range of critical predictability factors.

What is Eskom doing in the Western Cape?

Our level of reliance on Eskom in the Western Cape. The programmes also serve to implement the 'energy resilience and transition to net zero carbon' priority focus area of the Growth for Jobs Strategy which includes taking a whole of government and whole of society approach to ensure
